ABOUT TECMONSTER'S TECMO SUPER BOWL 2017 . . . how the original game *shoulda* been made!

This game, *Tecmonster's Tecmo Super Bowl 2017*, is based on the original *Tecmo Super Bowl* that we all know and love, but has been hacked and edited to a *revolutionary* extent! To create the player ratings, I feed their Madden ratings into a spreadsheet of my own formulas that then spits out Tecmo-compatible ratings. You might also notice that I'm actually using the "Running Power" attribute as a dynamic category for offensive players instead of just assigning every player a 69 rating, as in the original game (which was, in my opinion, simply an oversight by the creators, or maybe just an easy way to finish the game faster). I also changed its name to "Acceleration" because that's its real function. Here's an index of the hacks used to create this game, in no particular order, with tecmobowl.org authors in parenthesis:

- 32-team expansion rom (cx_rom, Maynard, Knobbe, others)
- helmets, field colors (keithisgood)
- COM looks for open receivers (jstout)
- COM Ultra Logic to play better defense (jstout)
- moving & dynamic grapples (bruddog)
- MAN vs. MAN popcorning (jstout)
- sort receiving leaders by yards (jstout)
- more accurate attribute labels, like "Acceleration" (Tecmonster)
- kicking arrow speed & range to make FG's easier (Tecmonster)
- COM minimum kickoff distance to 8yl, max to -3yl (bruddog)
- increase kickoff ball speed (maynard, bodom)
- increase shotgun snap speed (jstout)
- tougher to block FG's by adding personal protectors (Tecmonster)
- increase QB fumble rate (jstout)
- decrease diving animation time slightly (xplozv)
- decrease handoff animation time (xplozv)
- COM "juice" edited (by Tecmonster)
- PA affects "catchability/interceptability" of the pass (jstout)
- set kick returner farther back (bodom)
- Ball Control ratios edited so BC means more (by Tecmonster)
- static schedules from week to week (bruddog)
- Quickness changed to Coverage (jstout)
- kick returners use their actual attributes (konforce, jstout)
- stats screen at halftime (xplozv)

- corrected playoff bracket (pambazos)
- MAN-controlled QB rollouts on the rollout plays (Tecmonster)
- LB's moved farther back from line of scrimmage (Tecmonster)
- Run & Shoot QB's almost never scramble (Tecmonster)
- "heavy pass" teams don't pass quite as much (Tecmonster)
- REVISED PLAYBOOKS (I have drastically changed and re-organized the playbooks to make them more useful, logical, balanced, and modern), including: (a) new plays, like the Shotgun Shovel, Shotgun Zone Read RB R, Shotgun Zone Read QB L (with QB HP boost), Shotgun RB Draw, Shotgun Zone Read Red Sea (pass), Shotgun Zone Read X Fly (pass), Shotgun Zone Read RB Flat (pass), Pro Set Quick Pitch L, Pro Set Quick Pitch R, Pro Set Zone Pitch R, 1back Oftackle R, 1back Pitch R, 1back Pitch L, Run and Shoot Fire (pass), Shotgun XZ Cross, 1back Flare C, Pro Z Deep Post; (b) improved blocking schemes for many run plays; (c) some receiving routes for existing plays improved; (d) some receiving routes added, like for Oneback Flare A;
- COM avoids sacks much better + faster COM rollouts (Tecmonster)
- shorter onside kicks (xplozv)
- COM RB reacts to the defense sooner after handoff (Tecmonster)
- smarter OL pass blocking (xplozv)
- receiver jump/dive based on REC rating (xplozv)
- defender jump/dive based on COV rating (xplozv)
- COM minimum punt distance @ 50% bar (bruddog)
- Avoid Pass Block ratios edited so APB means more (Tecmonster)
- team rosters, jersey #'s, faces (qbvikings, Tecmonster)

Special thanks to bruddog, buck, and pambazos (zone read plays) for helping me understand play-making, and to tecmobowl.org.

WHAT DOES EACH TEAM'S "SALARY CAP" MEAN?

The **SALARY CAP** section at the top right of each team profile is what the Reno Tecmo League uses for its fantasy draft, and it's derived from the combined talent level (total # of attribute points) of the team's offensive line and defense. For more details, you can go to our "Record Book" page at renotecmoleague.weebly.com. TSBSupreme is used to edit rosters but, if you do this, the game might experience a glitch after editing, and that glitch is rooted in the moving grapples hack. Check the thread where you downloaded this game to get the fix.

 SEASON OUTLOOK	
GRADE CALIBER	TEAMS
A	SUPER BOWL FAVORITES Panthers, Patriots, Bengals, Raiders
B	SUPER BOWL CONTENDERS Seahawks, Eagles, Cardinals, Cowboys, Chiefs, Vikings, Broncos, Steelers
C	PLAYOFF CONTENDERS Giants, Packers, Dolphins, Bucs, Titans, Texans, Bills, Saints, Redskins, Jets, Rams, Ravens
D	PLAYOFF LONGSHOTS Lions, Falcons, Jaguars, Bears, Chargers, Colts, 49ers
F	HOPELESS Browns

POSSIBLY UNDERRATED . . . after looking at alternate power ratings that treats all positions and attributes equally, the **Seahawks** could actually be a Super Bowl Favorite. They're ranked #3 on that other list, and have the #1 ranked defense in the game. Those same ratings consider the **Falcons** to be a Playoff Contender, so don't count them out either, especially with that high octane offense. **POSSIBLY OVERRATED . . .** the **Steelers** might be lucky to be included here as a Super Bowl Contender, as they're ranked #18 overall in the alternate power ratings. They have an explosive offense for certain, but have lots of holes defensively. The **Ravens**, ranked #29 on the other list, lack playmakers, so maybe they're more of a Playoff Longshot. **TOUGHEST DIVISION . . .** the **AFC West** is brutal, with two Super Bowl Contenders (Broncos, Chiefs) and a Super Bowl Favorite (Raiders), so look for the Broncos or Chiefs to miss the playoffs despite being plenty worthy. **WEAKEST DIVISION . . .** the **AFC North** is anyone's to win, with no A or B-rated teams. The **Titans** are a slight favorite, but even the D-rated Colts have a chance. **DON'T SLEEP ON . . .** the **Giants**. They're ranked as a Super Bowl Contender in the main set of power ratings and they're neck-and-neck with every other team in their division. **OFFENSIVE MVP CANDIDATES . . .** QB Cam Newton, RB Adrian Peterson, WR DeAndre Hopkins. **DEFENSIVE MVP CANDIDATES . . .** DL Aaron Donald, LB Luke Kuechly, DB Tyrann Mathieu.

DIVISION FAVORITES:

- A East:**  Patriots
- A North:**  Bengals
- A South:**  Titans
- A West:**  Raiders
- WC#1:**  Chiefs
- WC#2:**  Steelers
- N East:**  Eagles
- N North:**  Vikings
- N South:**  Panthers
- N West:**  Seahawks
- WC#1:**  Cardinals
- WC#2:**  Cowboys

NOTE: Team grades don't necessarily reflect the outlook of the actual NFL football teams, but rather their overall talent level in this video game. For instance, a major reason that the Patriots are great is because Tom Brady might be the best decision-maker in the NFL, but that skill is moot here because decision-making is handled by the person or machine in control of Brady at the time. In other cases though (like with players such as Jadeveon Clowney who was crazy fast at the combine), combine "freaks" won't be crazy fast in this game if they've not yet proven to be "fast on the field" in the NFL.

SCHEDULE

BUFFALO BILLS

ANALYSIS: Tyrod Taylor has emerged as one of the best dual threat QB's in the NFL, and he has quite an arsenal, starting with a dynamic pair of scatbacks in McCoy & Bush, then the dangerous WR Watkins, and even all-around TE Clay. Darius is a bulldozer at DL, and Gilmore & Darby are ball-hawking corners.

SUMMARY: Playoff Contender (C) with a balanced, multi-set offense.

MIAMI DOLPHINS

ANALYSIS: QB Tannehill is competent with both his arm and his legs but not spectacular, and that's a problem because he gets little help from his RB's or OL. WR Jarvis Landry is the lone playmaker. The defense can dazzle with one of the NFL's best d-lines in Suh and Wake and SS Jones is an elite headhunter.

NEW ENGLAND PATRIOTS

ANALYSIS: QB Brady continues to galvanize his HoF career and his team is supremely balanced. Blount is the NFL's most powerful RB, and the receiving corps is led by dominant TE Gronkowski. DL Sheard is vastly under-hyped, and Hightower, Collins, McCourty, and Chung lead an elite and versatile back 7.

NEW YORK JETS

ANALYSIS: Steady QB Fitzgerald returns and newly imported, multi-talented RB Forte joins an excellent group of receivers in Marshall and Decker. The d-line is unblockable and probably the NFL's best, but the LB's are soft. CB Revis is still a shutdown corner, and "Louisville Slugger" SS Pryor can lay the wood.

CINCINNATI BENGALS

ANALYSIS: The trio of QB Dalton, WR Green, and TE Eifert could be the NFL's next great juggernaut thru the air, and its complemented by a power-finesse combo at RB and a very good o-line. The smashmouth defense is also loaded at each level, with Atkins and Dunlap on the d-line, LB Burfict, and DB Jones.

CLEVELAND BROWNS

ANALYSIS: Fleet-footed, strong-armed QB Robert Griffin arrives but doubts about his accuracy remain. About the only true bright spot on this team is LT Joe Thomas, who is the NFL's best at his position, but the skill players are lackluster, and the pushover defense is almost totally absent of playmakers.

BALTIMORE RAVENS

ANALYSIS: Another boring but solid Ravens team is lead by cannon-armed Joe Flacco and a good group of receivers, like future Hofamer Steve Smith Sr., but the RB's lack punch. The defense can carry them, as LB's Suggs, Moseley, and Dumervil are rock-solid against the run, and FS Weddle is an all-around star.

PITTSBURGH STEELERS

ANALYSIS: QB Big Ben Roethlisberger leads the most explosive offense in the NFL. RB Bell is the total package and WR Brown is impossible to cover. Both have very few, if any, rivals at their positions. It's fortunate too, because the defense is average at best, but DL Heyward is an absolute beast up front.

SUMMARY: Super Bowl Contender (B) with a balanced, 1back offense.

INDIANAPOLIS COLTS

ANALYSIS: QB Luck's star isn't shining as brightly these days -- he's been an interception machine -- and he's not receiving much help from the running game . . . or the defense. Superstar Vontae Davis is still wreaking havoc on opposing QB's but he can't do it all by himself. Colts just don't have the horses.

SUMMARY: Playoff Longshot (D) with a pass-based, all-shotgun offense.

HOUSTON TEXANS

ANALYSIS: The uninspiring signing of QB Osweiler, as the connection to electrifying WR Hopkins, was countered by the brilliant addition of RB Lamar Miller, ranked by PFF as the NFL's 3rd best RB. JJ Watt is a one-man wrecking crew on the defensive line, and fresh-kid LB Clowney might finally be arriving.

JACKSONVILLE JAGUARS

ANALYSIS: The Jags are skyrocketing upward. QB Bortles continues to improve and they just added the NFL's new "Beastmode" in RB Chris Ivory. He complements one of the league's best young receiving duos in Hurns & Robinson. The defense is better now too, after adding the explosive DE Jackson & DB Ramsey.

TENNESSEE TITANS

ANALYSIS: Dual threat QB Mariota looks to follow up a successful rookie year and he's been given new weapons in RB's Murray & Heisman winner Henry. TE Walker has become one of the NFL's best and most complete at the position. The D still needs work, but DL Casey continues to be a destroyer of worlds.

DENVER BRONCOS

ANALYSIS: Athletic rookie QB Lynch gets the nod, but he's raw. The pride of this offense is its WR's, with Sanders much in the mold of Antonio Brown. The defensive back 7 is elite, with Miller and Marshall as one of the NFL's top LB tandems, and a balanced, deep secondary built to stop the pass and the run.

OAKLAND RAIDERS

ANALYSIS: An exciting, young offense begins with QB Carr, who has all the tools to be a legend, then continues with the power-speed mix of RB Murray, and ends with the AFC's best o-line. Their pass D gets a boost with the addition of CB Smith, and LB Mack is a heat-seeking missile who will own the NFL soon.

KANSAS CITY CHIEFS

ANALYSIS: QB Smith doesn't electrify, but he gets the job done w/o mistakes and gives the keys of the offense to the ultra-elusive RB Charles. The defense is in excellent shape, as LB's Houston and Johnson complement like no other duo in the NFL, and there's nothing FS Eric Berry can't do to stonewall an assault.

WASHINGTON REDSKINS

ANALYSIS: Behind the surgical QB Cousins, the 'Skins have built a high-flying offense. TE Reed is a budding young star within it, and veteran WR Jackson still runs circles around defenses. Even the OL is improved. Defense is OK but not spectacular, except for new CB Josh Norman, who simply locks WR's down.

SUMMARY: Playoff Contender (C) with a pass-based, 1back offense.

NFC EAST

NEW YORK GIANTS

ANALYSIS: It's rare when a WR can carry an offense by himself, but that's the case with Odell Beckham, and he certainly gets no help from a putrid o-line. The d-line, on the other hand, is one of the NFC's very best, led by Vernon on the edge, who is an arsonist at the line of scrimmage. Rest of the D is subpar.

SUMMARY: Playoff Contender (C) with a balanced, 2back offense.

DALLAS COWBOYS

ANALYSIS: QB Romo has turnover problems, but he should have no problem with a supporting cast that has no weak links. Rookie Ezekiel Elliott joins a slew of horses in the RB stable, the receiving corps is loaded, and the o-line is the NFL's greatest. Again though, LB Lee must serve as almost a one-man defense.

CHICAGO BEARS

ANALYSIS: Maybe no team in the NFL has a trio of receivers like Jeffery, Royal, and White, and they have the best arm in the NFL throwing to them in Cutler. RB Langford has stepped up, and the OL has improved. The strength of the D is certainly its heart, at LB, with McPhee and Trevathan mowing thru offenses.

DETROIT LIONS

ANALYSIS: The RB stable is still relatively baron, so this offense will rest on the capable shoulders and big arm of QB Stafford again. Expect WR Tate to emerge from the shadows and become a superstar. Defense has stars at each level, with the explosive LB/DE Ansah, run-stopping LB Levy, and versatile DB Slay.

TAMPA BAY BUCCANEERS

ANALYSIS: Rookie-of-the-Year QB Winston looks like a solid, versatile performer, but the larger story is the comeback of RB Martin who can run through you or around you. The defensive front 7 has the stars needed to keep offenses in check, with DL McCoy plowing the field in front of athletic LB David.

ATLANTA FALCONS

ANALYSIS: QB Ryan is short on accolades but long on throwing ability, and he leads a very potent and balanced attack. RB's Freeman and Coleman form a dynamic speed-power attack, while WR Jones is at the very top of the WR list. The D is horrible, but Trufant is a complete CB and SS Neal is a vicious hitter.

SUMMARY: Playoff Longshot (D) with a balanced, 2back offense.

NEW ORLEANS SAINTS

ANALYSIS: One of the most prolific QB's in NFL history looks to stay that way with weapons like WR Cooks, who is as fast as it gets in this game. DL Jordan possesses a power-speed skill set that very few defenders can match, and DB Byrd has no weaknesses. The late addition of LB Kruger will help the pass rush.

CAROLINA PANTHERS

ANALYSIS: Let's start with best dual-threat QB in the game, Cam Newton. Add in do-it-all stud RB Stewart, a pass-catching maestro in TE Olsen, and a steam-rolling o-line, and you have a LOADED offense. Still going... DL Short is a Sherman tank and LB's Keuchly (rated NFL's #1) and Davis are all-around stars.

SAN FRANCISCO 49ERS

ANALYSIS: The more athletic Kaepernick will start at QB and run the zone read again with powerful RB Hyde and, given the mediocre receiving corps, they'll be running a lot. They're upgraded along the d-line and that will help Bowman play his role as one of the NFL's premier run-stuffers at LB. DB Reid brings it.

SEATTLE SEAHAWKS

ANALYSIS: QB Wilson has to carry more of the load this year but this dual-threat phenom can handle it. Defensively, they're stacked. Bennett & Avril are the NFL's best rush duo, LB's Wagner & Wright are bloodhounds, and the DB's run, hit, and cover like no other unit. SS Chancellor just vaporizes ballcarriers.

LOS ANGELES RAMS

ANALYSIS: Many fans want to see rookie Goff take over at QB, but Keenum is better right now. Just give the ball to all-world RB Gurley, and the rest is trivial. The heart of the Rams is its d-line, and the jewel there is Aaron Donald, rated as the #1 overall player in the NFL last season by PFF. He's JJ Watt-like.
