ABOUT TECMONSTER'S TECMO SUPER BOWL 2020 . . . how the original game *shoulda* been made!

This game, *Tecmonster's Tecmo Super Bowl 2018*, is based on the original Tecmo Super Bowl that we all know and love, but has been hacked and edited to a *revolutionary* extent! To create the player ratings, I feed their Madden ratings into a spreadsheet of my own formulas that then spits out Tecmo-compatible ratings. You might also notice that I'm actually using the "Running Power" attribute as a dynamic category for offensive players instead of just assigning every player a 69 rating, as in the original game (which was, in my opinion, simply an oversight by the creators, or maybe just a shortcut to finish the game faster). I also changed its name to "Acceleration" because that's its real function. Here's an index of the hacks used to create this game, in no particular order, with tecmobowl.org authors in parenthesis:

- 32-team expansion rom (cx_rom, Maynard, Knobbe, others)
- helmets, field colors (keithisgood)
- COM looks for open receivers (jstout)
- COM Ultra Logic to play better defense (jstout)
- moving & dynamic grapples (bruddog)
- MAN vs. MAN popcorning (jstout)
- sort receiving leaders by yards (jstout)
- more accurate attribute labels, like "Acceleration" (Tecmonster)
- kicking arrow speed & range to make FG's easier (Tecmonster)
- COM minimum kickoff distance to 8yl, max to -3yl (bruddog)
- increase kickoff ball speed (maynard, bodom)
- increase shotgun snap speed (jstout)
- tougher to block FG's by adding personal protectors (Tecmonster)
- increase QB fumble rate (jstout)
- decrease diving animation time slightly (xplozv)
- decrease handoff animation time (xplozv)
- COM "juice" edited (by Tecmonster)
- PA affects "catchability/interceptability" of the pass (jstout)
- set kick returner farther back (bodom)
- Ball Control ratios edited so BC means more (by Tecmonster)
- static schedules from week to week (bruddog)
- Quickness changed to Coverage (jstout)
- kick returners use their actual attributes (konforce, jstout)
- stats screen at halftime (xplozv)

- corrected playoff bracket (pambazos)
- MAN-controlled QB rollouts on the rollout plays (Tecmonster)
- LB's moved farther back from line of scrimmage (Tecmonster)
- Run & Shoot QB's almost never scramble (Tecmonster)
- "heavy pass" teams don't pass quite as much (Tecmonster)
- REVISED PLAYBOOKS (I have drastically changed and re-organized the playbooks to make them more useful, logical, balanced, and modern), including: (a) new plays, like the Shotgun Shovel, Shotgun Zone Read RB R, Shotgun Zone Read QB L (with QB HP boost), Shotgun RB Draw, Shotgun Zone Read Red Sea (pass), Shotgun Zone Read X Fly (pass), Shotgun Zone Read RB Flat (pass), Pro Set Quick Pitch L, Pro Set Quick Pitch R, Pro Set Zone Pitch R, 1back Oftackle R, 1back Pitch R, 1back Pitch L, Run and Shoot Fire (pass), Shotgun XZ Cross, 1back Flare C, Pro Z Deep Post; (b) improved blocking schemes for many run plays; (c) some receiving routes for existing plays improved; (d) some receiving routes added, like for Oneback Flare A;
- COM avoids sacks much better + faster COM rollouts (Tecmonster)
- shorter onside kicks (xplozv)
- COM RB reacts to the defense sooner after handoff (Tecmonster)
- smarter OL pass blocking (xplozv)
- receiver jump/dive based on REC rating (xplozv)
- defender jump/dive based on COV rating (xplozv)
- COM minimum punt distance @ 50% bar (bruddog)
- Avoid Pass Block ratios edited so APB means more (Tecmonster)
- team rosters, jersey #'s, faces (Tecmonster)
- city name changes (bruddog)
- automated & accurate sim ratings (Tecmonster)

Special thanks to bruddog, buck, and pambazos (zone read plays) for helping me understand play-making, and to tecmobowl.org.

WHAT DOES EACH TEAM'S "SALARY CAP" MEAN?

The **SALARY CAP** section at the top right of each team profile is what the Reno Tecmo League uses for its fantasy draft, and it's derived from the combined talent level (total # of attribute points) of the team's offensive line and defense. For more details, you can go to our "Record Book" page at renotecmoleague.weebly.com. TSBTToolSupreme is used to edit rosters but, if you do this, the game might experience a glitch after editing, and that glitch is rooted in the moving grapples hack. Check the thread where you downloaded this game to get the fix.

SEASON OUTLOOK	
GRADE CALIBER	TEAMS
A	SUPER BOWL FAVORITES Eagles, Cowboys, Rams, Saints, Patriots
B	SUPER BOWL CONTENDERS Bears, Browns, Falcons, Seahawks, Chiefs, Ravens, Steelers
C	PLAYOFF CONTENDERS Panthers, Lions, Jets, Packers, Vikings, Redskins, 49ers, Texans, Chargers, Titans, Jaguars
D	PLAYOFF LONGSHOTS Colts, Broncos, Bengals, Cardinals, Giants, Buccaneers, Raiders, Bills
F	HOPELESS Dolphins

POSSIBLY UNDERRATED...after looking at the alternate, *unweighted* power ratings, the **Panthers** are a Super Bowl contender. They have all the offensive pieces in place, under-rated o-line, and a stout defense to make a run. The **Bears** have a mercurial quarterback, but good luck trying to move the ball against the NFL's top rated defense, and the other ratings slot them at #3 overall in the NFL. **POSSIBLY OVERATED...**in the other ratings, the **Rams** are just a half-step above a "C" team due to massive holes at the LB position, and the **Jaguars** are viewed as a real longshot to make the playoffs. **HARD LUCK...**the **Seahawks** are a top 10 team in *both* sets of power ratings (#6 in the un-weighted set!), but the NFC is stacked this year and they're projected to finish the season on the outside looking in.

GOOD LUCK...the **Texans** have one of the NFL's weakest run games but a good athlete at QB to lead their offense. Luckily, they live in the AFC South, which is one of the worst divisions from top to bottom that Tecmonster's game has ever seen. Not one team there is ranked inside the top 20. **DON'T SLEEP ON...**the **Falcons**. They were really banged up last year and had a disappointing season, but this year's healthy unit has star talent at every level and the unweighted ratings hail them as the NFL's 4th best team. **OFFENSIVE MVP CANDIDATES...**Russell Wilson, Patrick Mahomes, Leveon Bell, Julio Jones. **DEFENSIVE MVP CANDIDATES...**Aaron Donald, Bobby Wagner, Jamal Adams.

DIVISION FAVORITES:

- A** East: Patriots
- A** North: Browns
- A** South: Texans
- A** West: Chiefs
- A** wc#1: Ravens
- A** wc#2: Steelers
- N** East: Eagles
- N** North: Bears
- N** South: Saints
- N** West: Rams
- N** wc#1: Cowboys
- N** wc#2: Falcons

NOTE: Team grades don't necessarily reflect the outlook of the actual NFL football teams, but rather their overall talent level in this video game. For instance, a major reason that the Patriots are great is because Tom Brady might be the best decision-maker in the NFL, but that skill is moot here because decision-making is handled by the person or machine in control of Brady at the time. In other cases though (like with players such as Jadeveon Clowney who was crazy fast at the combine), combine "freaks" won't be crazy fast in this game if they've not yet proven to be "fast on the field" in the NFL.
